7.0 MWac CAPACITY

## Salcon-KSSE consortium picked as CGPP solar power producer

**KUALA LUMPUR:** A consortium comprising Salcon Bhd and KAB Smart Solar Energy Sdn Bhd (KSSE) has been selected as one of the Corporate Green Power Programme (CGPP) solar power producers.

Kinergy Advancement Bhd (KAB) said in a filing with Bursa Malaysia yesterday the consortium had an export capacity allotment of seven MWac in Sungai Siput, Perak.

Presently, 563.42 MWac have been awarded to 22 applicants, with another 236.58 MWac yet to be assigned.

KSSE is a wholly-owned subsidiary of KAB.

"We are proud to be one of the 22 solar power producers selected under the CGPP. This is testament to our solar photovoltaic

portfolio strength, in line with the growth strategy of our sustainable energy solutions (SES) segment," said KAB executive deputy chairman and group managing director Datuk Lai Keng Onn.

"Given our position in the sustainable energy industry, we believe that there are ample opportunities ahead in the solar energy industry, where we can replicate our success by leveraging our experience and proven track record in the SES segment."

According to the filing, KSSE has the right of first refusal for the engineering, procurement, construction, and commissioning and/or operation and maintenance services portions, given its experience in the solar energy industry.
