Salcon, Berjaya Infrastructure to jointly undertake wastewater infrastructure projects

By Azanis Shahila Aman - January 7, 2022 @ 5:15pm

Salcon Bhd's subsidiary, Salcon Engineering Bhd (SEB), has partnered with Berjaya Infrastructure Sdn Bhd (BISB) to undertake water and wastewater infrastructure projects.

KUALA LUMPUR: Salcon Bhd's subsidiary, Salcon Engineering Bhd (SEB), has partnered with Berjaya Infrastructure Sdn Bhd (BISB) to undertake water and wastewater infrastructure projects.

Today, both parties signed the memorandum of understanding (MoU) to jointly collaborate their resources to undertake selected infrastructure projects within and outside Malaysia with effect from the date of the MoU.

BISB chairman Datuk Richard Curtis said the company's extensive infrastructure experience and strong financial structure combined with Salcon's proven track record and experience in Malaysia and the region would bring many synergistic benefits.

"This strategic partnership with Salcon will enable us to strengthen our capabilities and seize opportunities to meet critical needs in the water and wastewater sector," said Curtis.

Meanwhile, SEB chief operating officer Jamiluddin Amini Sulaiman said the company is delighted to partner with BISB.

"The complementary nature of the partnership will enable us to bring our expertise and innovative solutions and services to our clients," said Jamiluddin.
